GQZ bearings wholesale customization UCFL Series Insert Bearing

The features of UCFL series external spherical bearings mainly include simple mounting, diversified base designs, good stability and easy maintenance.

1□Simple mounting method: UCFL series bearing housings are fixed by bolts or nuts, eliminating the need for a large number of mounting tools and allowing for quick and easy mounting.

Diversified base design: Diamond, square and round base designs are available to meet the needs of different installation environments.

2□Good stability: The unique diamond-shaped base design enhances the stability of the bearing housing, enabling it to withstand greater axial and radial loads.

3□Easy maintenance: simple structure, easy to disassemble and repair, reducing maintenance costs.

UCFL series spherical bearings are widely used in metallurgy, mining, agriculture, light industry, heavy industry and other fields.
